Our pizzas are served on food-grade polyethylene trays, suitable for contact with food.

Changes to recipes that add ingredients will incur a price surcharge.

All our pizzas are prepared and baked in the same oven and in the same kitchen, so the risk of cross-contamination cannot be ruled out.

**Rice flour dough: rice flour, corn flour, legume flour, millet flour, flaxseed flour.

Allergen note: the pizza dough may contain traces of milk products.

Not suitable for coeliacs. As allergens are used in our own preparations, we cannot guarantee the absence of cross-contamination.

For any information on substances and allergens, please ask our staff for the relevant documentation, available on request.

All prices are in €/Euro.
